PRESENTED TO BAYOU PHOENIX

**This presentation is being made to Bayou Phoenix (“BP”) by Overtime Sports International (“OSI”) to introduce the team that participate in the most dynamic sports and recreation destinations in the country, separated from the hundreds of similar youth facilities operating in the U.S. today as well as Internationally.**

**The OSI team consists of world-class proven professionals. We are beyond sports and recreation development. We are a team of the best at every position, consisting of developers, management, marketing, branding, recreation, performers, team owners, athletes and most importantly we are self-reliant when it comes to financing. We’ve assembled a consortium of hotel developers that will supply the number of keys - rooms required by BP. You’ll find a reliable team capable of designing, constructing and managing sports facilities (indoor / outdoor), food & beverage, sports management, youth sports, amateur sports, collegiate sports and professional sports, while at the same time providing world renowned entertainers, performers and show designers that will bring a diverse audience and range of entertainment sought after by leaders around the world...right to the BP Development.**

**The OSI team is directly affiliated with Major League Baseball, the National Basketball Association, the National Football League, MGM Resorts International, Disney, Cirque Du So Leil, Universal Studios, Bass Pro, Sea World, National Independent Soccer Association, Legacy League Baseball.**

**Additionally, OSI consists of a number of current and former professional athletes from all major sports, many being all-stars and Hall of Famers in their respective sports.**

**The OSI vision, plan and team will not only include a partnership with the City of New Orleans, the Orleans Parish and the State of Louisiana – but it will also include Mayors, administrations, businesses and citizens representing 9 cities that surround New Orleans via the Legacy League and its 250+ NCAA, College, Jr. College and International players, giving more political support to BP and its efforts.**

**The OSI presentation also includes National and International television coverage and live streaming, which will bring the attention, foot traffic and dollars to the site via the Legacy League the National Independent Soccer Association and NCAA sanctioned tournaments.**

**These factors and many more will make BP a one-of-a-kind destination comparable only to Disney's Wide World of Sports.**

**Every aspect of what OSI will bring to the table will be accomplished through private financing, pending a LOI from BP and negotiated incentives from the city of New Orleans and the State of Louisiana, in a public-private partnership.**

**OSI now presents to BP the team's vision and partners and plans for:**

**“Project Satch”**
